

PADI DRYSUIT DIVER SPECIALTY

Ideal for those who want to dive year round!

If you desire to dive year round, but the colder water of southern California keeps you from enjoying it, then the PADI Drysuit Specialty is for you. By excluding water almost completely, drysuits are usually less bulky and allow the diver to move more freely. Staying warmer and using less energy to move about means that drysuit divers tend to use less air, and make more dives per day. Add to that the ultimate goal of keeping warm while you enjoy the dives. You also may be able to earn college credits by taking this course. For details visit <http://www.padi.com/padi/en/footerlinks/collegecreditsace.aspx>.

What qualifications do I need to start?

You will need your Open Water Certification to be eligible for the Drysuit Diver Course.

What will I do?

The PADI Drysuit Diver Course will introduce you to the different types of drysuits, prepare you to dive safely while using your dry suit and explain basic maintenance and minor repair techniques. Upon successful completion of the course the student will be awarded the PADI Drysuit Specialty Rating. This course also counts towards your Master Scuba Diver 5 Specialties!

How long will it take?

The course consists of an orientation and pool session before completing two open water dives.

What will I need?

- Dry Suit (Customers who have purchased a drysuit from O.E. to take the course will receive a discount.)
- Pay course fee
- PIC Certification Card
- PADI dry suit student pack
- Scuba rentals available for 1/2 price
