

MASTER SCUBA DIVER

Take the Master Scuba Diver Challenge!

You have the passion. You want to join the best of the best in recreational scuba diving. You want to live the dive lifestyle and explore the underwater world and go places and see things you have never experienced. Challenge yourself and your ability while exploring the underwater world like never before! Master Scuba Diver is the highest non-professional PADI recreational scuba diving certification and the dive possibilities are endless. One of the best ways to become an active diver is to experience new and exciting adventures. That, in essence, is what the PADI Master Scuba Diver program is about. With these in hand, you also will gain experience and explore new destinations with many new friends. With the new places you explore, you gain a higher lever of experience and become a more skilled diver. Most importantly, you can stay active, gain confidence and earn the respect of other divers around you.

What qualifications do I need to start?

To become a PADI Master Scuba Diver, you must be at least 12 years old and log 50 dives and complete the following PADI courses:

- PADI Open Water Diver course
- PADI Advanced Open Water Diver
- PADI Rescue Diver course
- Five PADI Specialty Diver Courses
