

OXYGEN FIRST AID COURSE

If you enjoy remote tropical vacations, dive off of charter boats, or plan to dive with family or friends, then it's in your best interest to be prepared for any dive related emergency.

The Dan or PADI oxygen first aid course is specifically designed for diving related emergencies. The purpose is to educate the public on how to assemble and deploy an oxygen system while arranging for further emergency care.

This and other courses offered by Ocean Enterprises help to ensure a safe and enjoyable dive adventure while providing life saving techniques that we hope you will never have to use. You also may be able to earn college credits by taking this course. For details visit <http://www.padi.com/padi/en/footerlinks/collegedcreditsace.aspx>.
